INDEPENDENT AUDITORS' REPORT

To the Shareholders and Directors of Gaia Metals Corp. (formerly 92 Resources Corp.).

Opinion

We have audited the consolidated financial statements of Gaia Metals Corp. (the "Company") which comprise the consolidated statements of financial position as at March 31, 2020 and 2019, and the consolidated statements of loss and comprehensive loss, changes in equity and cash flows for the years then ended, and the related notes comprising a summary of significant accounting policies and other explanatory information.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of the Company as at March 31, 2020 and 2019, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board.

Basis for Opinion

We conducted our audits in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audits of the consolidated financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter - Material Uncertainty Related to Going Concern

We draw attention to Note 1 of the accompanying consolidated financial statements, which describes matters and conditions that indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

Other Information

Management is responsible for the other information, which comprises the information included in the Company's Management Discussion & Analysis to be filed with the relevant Canadian securities commissions.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audits of the consolidated financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audits or otherwise appears to be materially misstated.

If, based on the work we have performed on this other information, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements,
 whether due to fraud or error, design and perform audit procedures responsive to those risks, and
 obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of
 not detecting a material misstatement resulting from fraud is higher than for one resulting from error,
 as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of
 internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures
 that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
 effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

The engagement partner on the audit resulting in this independent auditors' report is Fernando J. Costa.

(Expressed in Canadian dollars)

1. CORPORATE INFORMATION

Gaia Metals Corp. (the "Company") was incorporated on May 10, 2007 under the British Columbia Business Corporations Act. On September 10, 2012, the Company incorporated a wholly owned subsidiary, Petro Grande Energy Inc. The principal business of the Company is the identification, evaluation and acquisition of exploration and evaluation properties, as well as exploration of those properties once acquired. The Company is domiciled in Canada and is a reporting issuer with its common shares publicly traded on the TSX Venture Exchange (the "TSXV"). The address of its head office is Suite 500, 666 Burrard Street, Vancouver, British Columbia, Canada, V6C 3P6.

On October 7, 2019, the Company announced the change of its name from 92 Resources Corp. to Gaia Metals Corp. and the consolidation of the Company's common shares on the basis of one (1) post-consolidated share for every ten (10) pre-consolidated shares. These two became effective on October 15, 2019. On October 17, 2019, the shares of the Company commenced trading on TSXV on a consolidated basis under the name Gaia Metals Corp. and stock symbol "GMC".

As at March 31, 2020, the Company has not yet determined whether the properties contained ore reserves that are economically recoverable. The recoverability of amounts shown for exploration and evaluation properties is dependent upon the discovery of economically recoverable reserves, confirmation of the Company's interest in the underlying mineral claims, the ability of the Company to obtain the necessary financing to complete the development of and future profitable production from the properties or realizing proceeds from their disposition.

For the year ended March 31, 2020, the Company incurred a net loss of \$528,956. As at March 31, 2020, the Company had an accumulated deficit of \$8,112,703 which has been funded by the issuance of equity. The Company's ability to continue its operations and to realize its assets at their carrying values are dependent upon obtaining additional financing sufficient to cover its operating costs.

Although management is currently seeking additional sources of equity or debt financing, there is no assurance these activities will be successful. If the Company is unable to raise additional capital in the future, management expects that the Company will need to curtail operations, liquidate assets, seek additional capital on less favorable terms and/or pursue other remedial measures. Management is aware, in making its assessment, of material uncertainties related to events or conditions that may cast significant doubt upon the Company's ability to continue as a going concern as described. These consolidated financial statements (the "Financial Statements") do not give effect to any adjustments which would be necessary should the Company be unable to continue as a going concern and therefore be required to realize its assets and discharge its liabilities in other than the normal course of business and at amounts different from those reflected in the accompanying Financial Statements.

Notes to the Consolidated Financial Statements As at and for the years ended March 31, 2020 and 2019

(Expressed in Canadian dollars)

2. BASIS OF PREPARATION

2.1 Basis of presentation

These Financial Statements include the accounts of the Company and its wholly-owned subsidiary, Petro Grande Energy Inc. All material inter-company balances and transactions have been eliminated upon consolidation.

The Company's Financial Statements have been prepared on the historical cost basis except for certain financial instruments which are measured at fair value, as explained in Note 13, and are presented in Canadian dollars except where otherwise indicated.

The functional currency of the Company and its wholly owned subsidiary is the Canadian dollar.

2.2 Statement of compliance

The Financial Statements of the Company have been prepared in accordance with and using accounting policies in full compliance with International Financial Reporting Standards ("IFRS") and International Accounting Standards ("IAS") issued by the International Accounting Standards Board ("IASB").

These Financial Statements were approved and authorized for issue in accordance with a resolution from the Board of Directors on July 9, 2020.

2.3 Adoption of new and revised standards and interpretations

The IASB issued a number of new and revised IASs, International Financial Reporting Standards ("IFRS"), amendments and related IFRICs which are effective for the Company's financial year beginning on April 1, 2019. The Company has adopted all the following new standards relevant to the Company for the years ended March 31, 2020 and 2019.

- IFRS 7 'Financial instruments: Disclosure' was amended to require additional disclosures on transition from IAS 39 to IFRS 9. The standard is effective on adoption of IFRS 9, which is effective for annual periods commencing on or after January 1, 2018. IFRS 16 'Leases' was issued on January 13, 2016 and will be effective for accounting periods beginning on or after January 1, 2019. Early adoption is permitted, provided the Company has adopted IFRS 15. This standard sets out a new model for lease accounting.
- IFRIC 23 'Uncertainty over Income Tax Treatments' is interpretation that clarifies how to apply the recognition and measurement requirements in IAS 12 'Income Taxes' when there is uncertainty over tax treatments. The effective date for IFRIC 23 is for annual periods beginning on or after January 1, 2019.
- IFRS 16 'Leases' is a new standard that sets out the principles for recognition, measurement, presentation, and disclosure of leases including guidance for both parties to a contract, the lessee and the lessor. The new standard eliminates the classification of leases as either operating or finance leases as is required by IAS 17 and instead introduces a single lessee accounting model. IFRS 15 is applicable to annual reporting periods beginning on or after January 1, 2019.

Notes to the Consolidated Financial Statements As at and for the years ended March 31, 2020 and 2019

(Expressed in Canadian dollars)

The adoption of the above standards did not have a material impact on the Company's Financial Statements.

The IASB and IFRIC have issued the following new and revised standards and amendments, which are not yet effective for the year ended March 31, 2020.

- IFRS 10 'Consolidated Financial Statements' amendments relate to sale or contribution of assets between and investor and its associate or joint venture and are applicable for annual periods beginning on or after a date to be determined by the IASB. Earlier application is permitted if disclosed.
- IAS 1 'Presentation of Financial Statements' ("IAS 1") and IAS 8 'Accounting Policies, Changes in Accounting Estimates and Errors' ("IAS 8") were amended in October 2018 to refine the definition of materiality and clarify its characteristics. The revised definition focuses on the idea that information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general-purpose financial statements make on the basis of those financial statements. The amendments are effective for annual reporting periods beginning on or after January 1, 2020. Earlier adoption is permitted. The Company is currently evaluating the potential impact of these amendments on the Company's Financial Statements.

The Company has not early adopted these standards and amendments and anticipates that the application of these standards, amendments and interpretations will not have a material impact on the financial position and financial performance of the Company.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

3.1 Significant accounting judgments, estimates and assumptions

The preparation of these financial statements requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the Financial Statements and reported amounts of expenses during the reporting period. Actual outcomes could differ from these estimates. These Financial Statements include estimates, which, by their nature, are uncertain. The impacts of such estimates are pervasive throughout the Financial Statements and may require accounting adjustments based on future occurrences.

Revisions to accounting estimates are recognized in the period in which the estimate is revised and future periods if the revision affects both current and future periods. These estimates are based on historical experience, current and future economic conditions and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Significant assumptions about the future and other sources of estimation uncertainty that management has made at the financial position reporting date that could result in a material adjustment to the carrying amounts of assets and liabilities, in the event that actual results differ from assumptions made, relate to, but are not limited to, the following: *Critical accounting estimates*

i. the inputs used in accounting for share-based payment expense in profit or loss;

Notes to the Consolidated Financial Statements As at and for the years ended March 31, 2020 and 2019

(Expressed in Canadian dollars)

- ii. the assessment of indications of impairment of exploration and evaluation properties and related determination of net realizable values and write-down of the properties where applicable;
- iii. the amount of decommissioning liabilities at year end;
- iv. expected future tax rates used in the deferred income tax disclosures.

Critical accounting judgments

- i. the determination of categories of financial assets and financial liabilities has been identified as an accounting policy which involves judgments or assessments made by management;
- ii. the determination of whether it is likely that future taxable profits will be available to utilize against any deferred tax assets; and
- iii. the determination of the Company's ability to continue as a going concern.

3.2 Cash and cash equivalents

Cash and cash equivalents consist of cash and liquid investments, which are readily convertible into cash with maturities of three months or less when purchased. The Company's cash and cash equivalents are invested with major financial institutions and are not invested in any asset-backed deposits or investments.

3.3 Exploration and evaluation properties

All costs related to the acquisition, exploration and development of exploration and evaluation properties ("E&E assets") are capitalized. Upon commencement of commercial production, the related accumulated costs are amortized against projected income using the units of production method over estimated recoverable reserves. Management annually assesses carrying values of properties for which events and circumstances may indicate possible impairment. Impairment of a property is generally considered to have occurred if (1) the property has been abandoned; (2) there are unfavorable changes in the property economics; (3) there are restrictions on development; or (4) when there has been an undue delay in development, which exceeds three years. In the event that estimated discounted cash flows expected from its use or eventual disposition is determined by management to be insufficient to recover the carrying value of the property, the carrying value is written down to the estimated recoverable amount.

The recoverability of exploration and evaluation properties and exploration and development costs is dependent on the existence of economically recoverable reserves, the ability to obtain the necessary financing to complete the development of the reserves, and the profitability of future operations. The Company has not yet determined whether or not any of its future exploration and evaluation properties contain economically recoverable reserves. Amounts capitalized to exploration and evaluation properties as exploration and development costs do not necessarily reflect present or future values. When options are granted on exploration and evaluation properties or when properties are sold, proceeds are credited to the cost of the property.

Notes to the Consolidated Financial Statements As at and for the years ended March 31, 2020 and 2019

(Expressed in Canadian dollars)

If no future capital expenditure is required and proceeds exceed costs, the excess proceeds are reported as a gain.

Government grants related to exploration and evaluation properties

Government grants are recognized when there is reasonable assurance that the Company will comply with the conditions and requirements of the approved grant program and there is reasonable assurance that the grant will be received. Government grants are recorded as a reduction of carrying value of the exploration and evaluation properties acquired and shall be amortized to profit or loss as a reduced depreciation expense.

3.4 Income taxes

Income tax on the profit or loss for the periods presented comprises current and deferred tax. Income tax is recognized in profit or loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in equity.

Current tax expense is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at year-end, adjusted for amendments to tax payable with regards to previous years.

Taxes on income in the periods are accrued using the tax rate that would be applicable to expected total annual earnings. The tax rate used is the rate that is enacted or substantively enacted.

Deferred tax is provided using the liability method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realization or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the financial position reporting date applicable to the period of expected realization or settlement.

A deferred tax asset is recognized only to the extent that it is probable that future taxable profits will be available against which the asset can be utilized.

3.5 Decommissioning, restoration and similar liabilities

An obligation to incur restoration, rehabilitation and environmental costs arises when environmental disturbance is caused by the exploration or development of an exploration and evaluation property interest. Such costs arising from the decommissioning of plant and other site preparation work, discounted to their net present value, are provided for and capitalized at the start of each project to the carrying amount of the asset, along with a corresponding liability as soon as the obligation to incur such costs arises. The timing of the actual rehabilitation expenditure is dependent on a number of factors such as the life and nature of the asset, the operating license conditions and, when applicable, the environment in which the mine operates.

Discount rates using a pre-tax rate that reflects the time value of money are used to calculate the net present value. These costs are charged against profit or loss over the economic life of the related asset, through amortization using either the unit-of-production or the straight-line method.

Notes to the Consolidated Financial Statements As at and for the years ended March 31, 2020 and 2019

(Expressed in Canadian dollars)

The corresponding liability is progressively increased as the effect of discounting unwinds creating an expense recognized in profit or loss.

Decommissioning costs are also adjusted for changes in estimates. Those adjustments are accounted for as a change in the corresponding capitalized cost, except where a reduction in costs is greater than the unamortized capitalized cost of the related assets, in which case the capitalized cost is reduced to nil and the remaining adjustment is recognized in profit or loss.

The operations of the Company have been, and may in the future be, affected from time to time in varying degree by changes in environmental regulations, including those for site restoration costs. Both the likelihood of new regulations and their overall effect upon the Company are not predictable.

The Company has no material restoration, rehabilitation and environmental obligations as the disturbance to date is immaterial.

3.6 Share-based payments

Share-based payments to employees and others providing similar services are measured at the estimated fair value of the instruments issued on the grant date and amortized over the vesting periods. Share-based payments to non-employees are measured at the fair value of the goods or services received or the fair value of the equity instruments issued if it is determined the fair value of the goods or services cannot be reliably measured, and are recorded at the date the goods or services are received. The amount recognized as an expense is adjusted to reflect the number of awards expected to vest. The offset to the recorded cost is to equity settled share-based payment reserve.

Consideration received on the exercise of stock options is recorded as share capital and the related equity settled share-based payment reserve is transferred to share capital. Charges for options that are forfeited before vesting are reversed from equity settled share-based payment reserve.

3.7 Loss per share

Basic loss per share is computed by dividing net loss available to common shareholders by the weighted average number of common shares outstanding during the year. The Company applies the treasury stock method in calculating diluted loss per share. Diluted loss per share excludes all dilutive potential common shares if their effect is anti-dilutive.

3.8 Share issue costs

Professional, consulting, regulatory and other costs directly attributable to financing transactions are recorded as deferred financing costs until the financing transactions are completed, if the completion of the transaction is considered likely; otherwise they are expensed as incurred. Share issue costs are charged to share capital when the related shares are issued. Deferred financing costs related to financing transactions that are not completed are expensed.

Notes to the Consolidated Financial Statements As at and for the years ended March 31, 2020 and 2019

(Expressed in Canadian dollars)

3.9 Warrants issued in equity financing

The Company engages in equity financing transactions to obtain the funds necessary to continue operations and explore and evaluate resource properties. These equity financing transactions may involve issuance of common shares or units. A unit comprises a certain number of common shares and a certain number of share purchase warrants.

Depending on the terms and conditions of each financing agreement, the warrants are exercisable into additional common shares prior to expiry at a price stipulated by the agreement. Warrants that are part of units are accounted for using the residual method, following an allocation of the unit price to the fair value of the common shares that were concurrently issued. Warrants that are issued as payment for an agency fee or other transactions costs are accounted for as share-based payments.

3.10 Flow-through shares

Current Canadian tax legislation permits a company to issue securities referred to as flow-through shares whereby the Company assigns the tax deductions arising from the related resource expenditures to the shareholders. The issue of flow-through shares is in substance an issue of ordinary shares and the sale of tax deductions. At the time the Company issues flow-through shares, the sale of tax deductions is deferred and presented as other liabilities in the statement of financial position to recognize the obligation to incur and renounce eligible resource exploration and evaluation expenditures. The tax deduction is measured as the difference between the current market price of the Company's common shares and the issue price of the flow-through share. Upon incurring and renouncing eligible resource exploration and evaluation expenditures, the Company recognizes the sale of tax deductions as a tax deduction recovery on the statement of comprehensive loss and reduces the other liability.

To the extent that the Company has deferred tax assets in the form of tax loss carry-forwards and other unused tax credits as at the reporting date, the Company may use them to reduce its deferred tax liability relating to tax benefits transferred through flow-through shares.

3.11 Impairment of non-financial assets

At the end of each reporting period, the Company assesses each cash-generating unit to determine whether there is any indication that those assets are impaired. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment, if any. The recoverable amount is the higher of fair value less costs to sell and value in use. Fair value is determined as the amount that would be obtained from the sale of the asset in an arm's length transaction between knowledgeable and willing parties. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discounted rate that reflects current market assessments of the time value of money and the risks specific to the asset. If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount and the impairment loss is recognized in profit or loss for the period.

For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the cash generating unit to which the asset belongs.

Notes to the Consolidated Financial Statements As at and for the years ended March 31, 2020 and 2019

(Expressed in Canadian dollars)

When impairment subsequently reverses, the carrying amount of the asset (or cash generating unit) is increased to the revised estimate and its recoverable amount, but to an amount that does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset (or cash generating unit) in prior years. A reversal of an impairment loss is recognized immediately in profit or loss.

3.12 Financial assets

At initial recognition, financial assets are classified as subsequently measured at amortized cost, fair value through other comprehensive income ("FVTOCI") or fair value through profit or loss ("FVTPL"). Financial assets are recognized initially at fair value, unless they are trade receivables that do not contain a significant financing component in accordance with IFRS 15, which shall be measured at their transaction price. The subsequent measurement of financial assets depends on their classification based on both the Company's business model for managing the financial assets and the contractual cash flow characteristics of the financial assets as follows:

Amortized Cost

The financial asset is subsequently measured at amortized cost if both the financial asset is held within a business model whose objective is to hold the financial assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Such assets are carried at amortized cost using the effective interest method. Gains and losses are recognized in profit or loss when the financial assets are derecognized or impaired, as well as through the amortization process. Transaction costs are included in the initial carrying amount of the asset. Amounts receivable are included in this category of financial assets.

Financial Assets at FVTOCI

The financial asset is subsequently measured at FVTOCI if both the financial asset is held within a business model whose objectives achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on principal amount outstanding or if an irrevocable election was made for certain equity instruments at initial recognition. After initial recognition, the financial assets are measured at fair value, with gains or losses recognized within other comprehensive income except for impairment gains (losses) and foreign exchange gain (losses). Accumulated changes in fair value are recorded as a separate component of equity until the financial asset is derecognized, at which point, they are reclassified from equity to profit or loss as a reclassification adjustment. Transaction costs are included in the initial carrying amount of the asset. The Company does not have any assets measured at FVTOCI.

Financial Assets at FVTPL

A financial asset shall be measured at FVTPL if it is not measured at amortized cost or at FVTOCI. If the financial asset that would otherwise be measured at FVTPL is not acquired or incurred principally for the purpose of selling or repurchasing it in the near term, not part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short-term profit-taking or a derivative, the Company may make an irrevocable election at initial recognition to present subsequent fair value changes of the

Notes to the Consolidated Financial Statements As at and for the years ended March 31, 2020 and 2019

(Expressed in Canadian dollars)

equity instrument in OCI. Transaction costs associated with financial assets at FVTPL are expensed as incurred. These assets are carried at fair value with gains or losses recognized in profit or loss. Cash and cash equivalents are included in this category of financial assets.

3.13 Impairment of financial assets

The Company shall recognize a loss allowance for expected credit losses on financial assets measured at amortized cost or FVTOCI, a lease receivable, a contract asset or a loan commitment. If the credit risk on the financial instrument has increased significantly since initial recognition, the loss allowance shall be measured at an amount equal to the lifetime expected credit losses, otherwise, it shall be measured at an amount equal to the 12-month expected credit losses.

3.14 Financial liabilities

At initial recognition, financial liabilities are classified as financial liabilities measured at amortized cost unless they are financial liabilities at FVTPL (including derivatives that are liabilities), financial liabilities that arise when a transfer of financial asset does not qualify for derecognition, financial guarantee contracts, commitments to provide a loan at a below-market rate or contingent consideration recognized by an acquirer in a business combination. Financial liabilities are recognized initially at fair value. Transaction costs directly attributable to the issue of a financial liability are included in the initial carrying value of financial liabilities if they are not measured at FVTPL. The subsequent measurement of financial liabilities depends on their classification, as follows:

Financial Liabilities Measured at Amortized Cost

All other financial liabilities are initially recognized at fair value, net of transaction costs. After initial recognition, other financial liabilities are subsequently measured at amortized cost using the effective interest method. Amortized cost is calculated by taking into account any issue costs, and any discount or premium on settlement. Gains and losses arising on the repurchase, settlement or cancellation of liabilities are recognized respectively in interest, other revenues and finance costs. Accounts payables are included in this category of financial liabilities.

Financial Liabilities at FVTPL

Financial liabilities are carried at fair value with gains or losses recognized in net income (loss). Where the financial liability is designated as at FVTPL, only the amount of change in the fair value of the financial liability that is attributable to the changes in the credit risk of that liability shall be presented in OCI and the remaining amount of changes in fair value presented in profit or loss. Transaction costs on financial liabilities at FVTPL are expensed as incurred. The Company does not have any liabilities measured at FVTPL.

Other Financial Liabilities

The Company does not hold or have any exposure to derivative instruments, financial liabilities that arise when a transfer of financial asset does not qualify for derecognition, financial guarantee contracts, commitments to provide a loan at a below-market rate or contingent consideration recognized by an acquirer in a business combination.

Notes to the Consolidated Financial Statements As at and for the years ended March 31, 2020 and 2019

(Expressed in Canadian dollars)

3.15 De-recognition of financial assets and liabilities

Financial assets are derecognized when the contractual rights to receive cash flows from the assets expire or, the financial assets are transferred, and the Company has transferred substantially all the risks and rewards of ownership of the financial assets. On de-recognition of a financial asset, the difference between the asset's carrying amount and the sum of the consideration received, including any new asset obtained less any new liability assumed, is recognized in profit or loss. Where a transfer does not result in a derecognition due to continuing involvement, the Company shall continue to recognize the transferred asset and recognize a financial liability of the consideration received.

For financial liabilities, they are derecognized when the obligation specified in the relevant contract is discharged, cancelled or expires. The difference between the carrying amount of the financial liability derecognized and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss.

3.16 Related party transactions

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Parties are also considered to be related if they are subject to common control or common significant influence. Related parties may be individuals or corporate entities. A transaction is considered to be a related party transaction when there is a transfer of resources, services or obligations between related parties.

4. CASH AND CASH EQUIVALENTS

As at March 31, 2020, total cash of \$11,500 (March 31, 2019 - \$11,500) is secured against the Company's credit cards and held in a Guaranteed Investment Certificate ("GIC") (Note 5). The GIC earns interest at prime rate minus 2.70%.

5. AMOUNTS RECEIVABLE

The Company's amounts receivable arises from Goods and Services Tax ("GST") and Quebec Sales Tax ("QST") due from the government taxation authorities and accrued interest calculated on the GIC (Note 4).

Notes to the Consolidated Financial Statements As at and for the years ended March 31, 2020 and 2019

(Expressed in Canadian dollars)

6. PREPAID EXPENSES

The Company's prepaid expenses are as follows:

	March 31, 2020	Marc	ch 31, 2019
Prepaid management fees	\$ 13,205	\$	5,931
Prepaid rent	2,480		2,480

8.1 Hidden Lake Lithium Property

On February 16, 2016, and as amended on November 27, 2017, the Company entered into an Agreement (the "Agreement") with DG Resource Management Ltd. ("DG Resource"), Zimtu Capital Corp. ("Zimtu") and Michael V. Sklavenitis ("MS") for an option to acquire interest in two mineral claims consisting of 1,100 hectares, located northeast of Yellowknife, Northwest Territories. Under the terms of the Agreement, the Company earned 100% interest by paying cash of \$85,000, issuing 400,000 common shares (4,000,000 pre-consolidation) and completing \$500,000 in exploration expenditures as follows:

	Common		Exploration
	Shares*	Cash	Expenditures
	#	\$	\$

Agreement (issued; paid)	$200,000^{(2)}$	$35,000^{(3)}$	-
On or before September 30, 2016 (incurred)	-	-	250,000
On or before May 31, 2018 (incurred)	-	-	250,000
Total	400,000	85,000	\$500,000

⁽¹⁾ Non-refundable deposit paid to DG Resources upon execution of the Agreement

The regulatory approval related to the Hidden Lake Lithium Agreement was obtained from the TSXV on April 26, 2016.

Hidden Lake Property is subject to 2% Net Smelter Royalty with respect to the production of all material from the property, 1% of which can be purchased back from DG Resource by the Company within 5 years of the regulatory approval for \$2,000,000 (the "DGRM Royalty").

Joint Venture with Far Resources Ltd.

On January 22, 2018, the Company entered into an agreement to option out up to 90% of their interest in the Hidden Lake Property to Far Resources Ltd. ("Far") (the "Hidden Lake Option Out Agreement"), except for the DGRM Royalty. The Company then received \$50,000 in cash and 555,555 Far common shares with a fair value of \$227,777 (Note 7). Expenditures of \$500,000 were also incurred by February 28, 2019.

On May 16, 2019, the Company announced that Far had formally notified them of its intention to terminate its remaining earn-in for the Hidden Lake Property, originally announced on January 23, 2018. Under the terms of the new agreement, a joint venture between the companies will be formed for future exploration of the property. Far maintains a 60-percent interest earned through

⁽²⁾ Issuable 50% to DG Resource, 25% to Zimtu and 25% to MS

⁽³⁾ Payable to DG Resources

^{*}Shares were adjusted to reflect the share consolidation on October 17, 2019 (Note 10)

Notes to the Consolidated Financial Statements As at and for the years ended March 31, 2020 and 2019

(Expressed in Canadian dollars)

satisfying the year 1 conditions of the Option Agreement and the Company maintains a 40-percent interest in Hidden Lake. Far will remain as Operator and is responsible for financing the Joint Venture's initial \$1 million in expenditures.

8.2 Pontax Lithium Property

On July 25, 2016, and as amended on November 27, 2017, the Company entered into an agreement (the "Pontax Agreement") with DG Resource and MS for an option to acquire 100% interest in 104 mineral claims consisting of 5,536 hectares near Eastmain, Quebec by paying cash of \$50,000 and issuing 300,000 common shares (3,000,000 – pre-consolidation) as follows:

	Common	
	Shares*	Cash
	#	\$
Upon execution (paid)	-	$12,500^{(1)}$
Upon regulatory approval of the agreement (issued)	$150,000^{(2)}$	-
Within 60 days of regulatory approval (paid)	-	$12,500^{(3)}$
On or before May 31, 2018 (paid and issued)	$150,000^{(2)}$	$25,000^{(3)}$
Total	300,000	50,000

⁽¹⁾ Non-refundable deposit paid to DG Resource upon execution of the Pontax Lithium Agreement

Regulatory approval for the Pontax Agreement was obtained on September 20, 2016.

The Pontax Agreement is subject to a 3% Net Smelter Royalty ("NSR"). The Company can purchase 1.5% NSR within 5 years of regulatory approval by paying \$2,000,000 to DG Resource.

The Company has since expanded its land position, though online map designation, with the Pontax Property now comprised of 146 claims totaling 7,773 ha.

8.3 Upper Ross Lake Property

On July 7, 2016, the Company staked 2 claims totaling 57 hectares in Upper Ross Lake, Northwest Territories. The Company decided to strategically focus on its other lithium assets and the Property has since lapsed. During the year ended March 31, 2020, the Company recognized impairment loss of \$18,592 relating to this property.

8.4 Golden Silica Property (formerly referred to as "ZimFrac" or "Golden Frac Sand")

On January 27, 2014, the Company entered into a sale and purchase agreement (the "ZimFrac Agreement") with Cannon Bridge Capital Corp. ("Cannon") and Zimtu Capital Corp. ("Zimtu") (collectively, the "Vendors") and purchased from the Vendors a 100% interest in certain silica claims located near Golden, BC (the "ZimFrac Property"). In consideration, the Company issued 40,000 common shares (20,000 common shares to each of Cannon and Zimtu issued on February

^{(2) #100,000} issuable (1,000,000 – pre-consolidation) to DG Resource and #50,000 issuable (500,000 – pre-consolidation) to MS

(Expressed in Canadian dollars)

6,2014-200,000 each – pre-consolidation), subject to a 2% Net Smelter Royalty ("NSR"). The Company also issued 4,000 common shares (40,000 – pre-consolidation) in 2014 with a fair value of \$2.50 per share as a finder's fee.

The Company can purchase up to 1% NSR by paying an aggregate sum of \$1,000,000 (\$500,000 to each of Cannon and Zimtu).

The ZimFrac Agreement received regulatory approval on February 6, 2014.

On March 3, 2017, the Company entered into an agreement (the "Golden Frac Sand Agreement") with Dahrouge Geological Consulting Ltd. ("Dahrouge") and DG Resource Management Ltd. ("DG Resource") to purchase a 100% interest in certain mineral claims located near Golden, BC (the "Golden Frac Sand Property") to expand the size of the ZimFrac Property. In consideration, the Company paid \$40,000 (\$20,000 payable to Dahrouge and \$20,000 payable to DG Resource) within five days of signing the Golden Frac Sand Agreement on March 17, 2017.

The property has a Gross Over-Riding Royalty of 2% payable to DG Resource in the revenue from the sale of the production. The Company can purchase 1% of the GORR for \$2,000,000 at any time.

8.5 Quebec Properties

On September 18, 2017, the Company entered into an agreement (the "Quebec Properties Agreement") with DG Resource Management Ltd. ("DG Resource"), Simon Dahrouge ("SCD"), Sydney Dahrouge ("SAD") and Michael V. Sklavenitis ("MS") for an option to acquire interest in 115 mineral claims in the Eastmain Property, Lac Du Beryl Property and Corvette Property, located in the James Bay Region, Quebec. Under the terms of the Agreement, the Company earned 100% interest by paying cash of \$45,000 to DG Resource and issuing 150,000 share purchase warrants (50,000 each to SCD, SAD and MS – 500,000 each pre-consolidation) as follows:

	Warrants*	Cash
	#	\$
Upon closing (paid)	-	$12,500^{(1)}$
Earlier of regulatory approval or within 60 days of closing (paid)	-	$32,500^{(1)}$
Upon regulatory approval (issued)	$150,000^{(2)}$	-
Total	150,000	45,000

⁽¹⁾ Payable to DG Resource

The regulatory approval related to the Quebec Properties Agreement was obtained from the TSXV on September 26, 2017.

⁽²⁾ Issued 50,000 each to SCD, SAD and MS

^{*}Warrants were adjusted to reflect the share consolidation on October 17, 2019 (Note 10)

Notes to the Consolidated Financial Statements As at and for the years ended March 31, 2020 and 2019

(Expressed in Canadian dollars)

On October 19, 2017, in connection with the Quebec Properties Agreement, the Company paid reimbursement costs to DG Resource of \$2,220 incurred on the properties 2 months prior to signing the Quebec Properties Agreement.

The Quebec Properties Agreement is subject to a 2% Net Smelter Return with respect to the production of all materials from the properties.

The Lac du Beryl Property has since been expanded and is now comprised of 30 claims totaling 1,588 ha, forming two claim blocks.

The Corvette Property has since been expanded and is now comprised of 172 claims totaling 8,808 ha, forming one contiguous claim block.

FCI Property (East and West blocks)

On September 4, 2018, the Company entered into an Option Agreement (the "Agreement") with Osisko Mining Inc. ("Osisko") to acquire up to a 75% interest in 28 mineral claims ("FCI East") directly adjoining the Company's 100% owned Corvette Property.

Under the terms of the Agreement, the Company would earn an initial 50% interest by issuing 200,000 common shares (2,000,000 pre-consolidation) to Osisko and incurring \$2,250,000 work exploration expenditures as follows:

	Common Shares*	Work exploration expenditures
	#	\$
Upon closing date of the Agreement (issued) (September		
14, 2018)	100,000	-
On or before the 1 st anniversary date of closing (issued)		
(September 14, 2019)	100,000	250,000
To earn an initial 25% undivided interest On or before the 2 nd anniversary date of closing (September 14, 2020)	-	800,000
To earn an additional 25% undivided interest (50%		
interest in total)		
On or before the 3 rd anniversary date of closing		
(September 14, 2021)	-	1,200,000
Total	200,000	2,250,000

^{*}Shares were adjusted to reflect the share consolidation on October 17, 2019 (Note 10)

Osisko will act as Operator of the FCI Property for the term of the 50% earn-in, with a Steering Committee of equal representation formed to provide advice and direction to the Operator. Upon completion of the 50% earn-in (September 14, 2021), a Joint Venture Corporation will be formed with the Company retaining an Option to acquire a further 25% interest, for a total of 75% undivided interest, through funding of the next \$2,000,000 in exploration expenditures. The Company may become Operator upon notice to Osisko that it intends to incur the \$2,000,000 in work expenditures for a final undivided interest of 75%. Osisko's remaining 25% interest may be

Notes to the Consolidated Financial Statements As at and for the years ended March 31, 2020 and 2019

(Expressed in Canadian dollars)

further reduced through dilution if they elect to not fund their portion of subsequent exploration/development. If ownership falls below 10%, Osisko will have the right to convert this remaining interest into a 1% Net Smelter Royalty (NSR), of which, the Company retains the right to buy for \$5,000,000, and thereby, would obtain a 100% undivided interest in the FCI Property.

On April 24, 2019, the Company and Osisko entered into an amended agreement to include an additional 83 claims ("FCI West") under the same terms and conditions as the original agreement. No additional shares, cash, or work commitment is required by the Company, apart from general claim maintenance (i.e. renewal fees). Therefore, the FCI Property (East and West blocks) is currently comprised of 5,687 ha over 111 claims.

Subsequent to the Agreement, the FCI Property was included in a corporate restructuring and spin-out of assets from Osisko into a new public company called O3 Mining Inc. ("O3 Mining"). The FCI Agreement was transferred from Osisko to O3 Mining at this time. Therefore, O3 Mining is now the Optionor and Operator of the Property and all other terms and conditions of the Agreement remaining unchanged.

During the year end March 31, 2020, the Company provided a total of \$297,701 (total from the start cumulative of \$412,448) as cash call to Osisko/O3 Mining. As of March 31, 2020, total expenditures amounted to \$412,448 (payable to Osisko/O3 Mining amounted to \$3,693 as at March 31, 2020). Both parties have completed sufficient work expenditures to satisfy Year 1 of the Agreement. On September 19, 2019, the Company issued 100,000 common shares (1,000,000 – pre-consolidation) at \$0.03 per share (Note 10).

8.6 Silver Sands Vanadium Property

On November 13, 2018, the Company entered into an agreement with DG Resource Management Ltd. to acquire 100% interest in Silver Sands Vanadium Property (the "Silver Sands"), located in the Pine Pass area of eastern British Columbia. Silver Sands covers 3,735 hectares directly east of the Pine Pass Vanadium Property held by Ethos Gold Corp., which is located about 200 km north of Prince George, British Columbia.

Pursuant to the agreement, the Company will acquire a 100% interest in Silver Sands by paying staking costs of \$15,000. The vendor will retain a 2% Net Smelter Return on the Property.

As at March 31, 2020, the Company has incurred \$14,776 (March 31, 2019 - \$12,881) mineral expenditures pursuant to the agreement.

9. ACCOUNTS PAYABLE AND ACCRUED LIABILITIES

The Company's accounts payable and accrued liabilities are principally comprised of amounts outstanding for trade purchases relating to administrative activities. The usual credit period taken for trade purchases is between 30 to 90 days. As at March 31, 2020, the Company had \$9,194 (March 31, 2019 - \$40,196) in accounts payable and \$34,050 (March 31, 2019 - \$30,890) in accrued liabilities.

Notes to the Consolidated Financial Statements As at and for the years ended March 31, 2020 and 2019

(Expressed in Canadian dollars)

10. SHARE CAPITAL

10.1 Authorized share capital

The Company has authorized an unlimited number of common shares with no par value.

As at March 31, 2020, the Company had 14,788,817 common shares outstanding (March 31, 2019 – 8,780,246).

10.2 Shares issuances

On December 2, 2019, the Company closed a non-brokered private placement financing for gross proceeds of \$412,200 by issuing 5,888,571 units at a price of \$0.07 per unit. Each Unit is comprised of one common share and one transferable share purchase warrant, with each warrant entitling the holder to purchase one additional common share of the Company for a period of up to thirty-six months at a price of \$0.09 in the first year, \$0.15 in the second year and \$0.20 in the third year. In connection with the private placement, the Company paid a finder's fee of \$7,840 in cash.

On September 19, 2019, the Company issued 100,000 common shares (1,000,000 – pre-consolidation) at \$0.30 per share for the acquisition of the Corvette-FCI Property (Note 8).

On April 26, 2019, the Company issued 20,000 common shares (200,000 pre-consolidation) valued at \$0.50 per share for 20,000 (200,000 pre-consolidation) stock options exercised.

During the year ended March 31, 2019, the Company issued common shares as follows:

On December 27, 2018, the Company closed a non-brokered private placement financing for gross proceeds of \$618,000 by issuing 1,236,000 flow-through ("FT") units (12,360,000 – pre-consolidation) at a price of \$0.50 per unit. Each FT unit consists of one FT common share and one-half of one non-transferable share purchase warrant. Each whole warrant will permit the holder to acquire one additional common share at a price of \$1.00 per share until December 27, 2021. In connection with the private placement, the Company paid a finder's fee of \$39,440 in cash and issued 86,080 agent warrants (860,800 – pre-consolidation) (Note 15). Each agent warrant is exercisable to acquire one common share for a period of thirty-six months from the date of issuance at an exercise price of \$1.00 per share.

On September 17, 2018, the Company issued 100,000 common shares (1,000,000 – pre-consolidation) valued at \$0.60 per share for the acquisition of the Corvette-FCI Property (Note 8).

On August 1, 2018, the Company closed a non-brokered private placement financing for gross proceeds of \$217,750 by issuing 335,000 non-flow-through ("NFT") units (3,350,000 – pre-consolidation) at a price of \$0.65 per unit. Each NFT unit consists of one NFT common share and one-half of one non-transferable share purchase warrant. Each whole warrant will permit the holder to acquire one additional NFT common share at a price of \$1.00 per share until August 1, 2019.

Notes to the Consolidated Financial Statements As at and for the years ended March 31, 2020 and 2019

(Expressed in Canadian dollars)

On June 18, 2018, the Company issued 150,000 common shares (1,500,000 – pre-consolidation) valued at \$0.55 per share in accordance with the Pontax Agreement (Notes 8 and 15).

10.3 Share purchase warrants

A summary of changes in the Company's share purchase warrants outstanding as at March 31, 2020 and March 31, 2019 is as follows:

	March 3	31, 2020	March 31, 2019			
	Number of warrants ¹	Weighted average exercise price	Number of warrants	Weighted average exercise price		
Outstanding, beginning of year Granted Expired	1,021,580 5,888,571 (167,500)	\$ 1.10 0.09 1.00	1,540,717 871,580 (1,390,717)	\$ 1.50 1.00		
Outstanding, end of year	6,742,651	\$ 0.22	1,021,580	\$ 1.10		

¹Warrants were adjusted to reflect the share consolidation on October 17, 2019 (Note 10)

For the year ended March 31, 2020:

On August 1, 2019, 167,500 warrants (1,675,000 – pre-consolidation) expired unexercised.

On December 2, 2019, the Company granted 5,888,571 warrants in connection with a private placement.

For the year ended March 31, 2019:

On April 18, 2018, 51,400 warrants (514,000 – pre-consolidation) expired unexercised.

On August 1, 2018, the Company granted 167,500 warrants (1,675,000 – pre-consolidation) in connection with a private placement.

On December 27, 2018, the Company granted 618,000 warrants (6,180,000 – pre-consolidation) in connection with a private placement.

On January 3, 2019, 586,900 warrants (5,869,000 – pre-consolidation) expired unexercised.

On February 24, 2019, 752,417 warrants (7,524,166 – pre-consolidation) expired unexercised.

During the year ended March 31, 2019, the Company recorded share issue costs of \$15,897 for the 86,080 agent warrants (860,800 – pre-consolidation) granted pursuant to a private placement. The fair value of the agent warrants issued was estimated using the Black-Scholes option pricing

Notes to the Consolidated Financial Statements As at and for the years ended March 31, 2020 and 2019

(Expressed in Canadian dollars)

model with the following weighted average assumptions: stock price of \$0.30, volatility 138.13%, risk-free rate 1.91%, dividend yield 0%, and expected life of 3 years.

The following table summarizes information regarding share purchase warrants outstanding as at March 31, 2020:

Date issued	Number of warrants*	Exercise price (\$)	Expiry date	Weighted average remaining life
September 25, 2017	150,000	\$ 1.50	September 25, 2022	0.06
December 27, 2018	704,080	1.00	December 27, 2021	0.18
December 2, 2019	5,888,571	0.09	December 2, 2022	2.34
	6,742,651	\$ 0.09		2.57

^{*}Warrants were adjusted to reflect the share consolidation on October 17, 2019 (Note 10)

10.4 Stock options

The Company has an incentive share option plan for granting options to directors, employees and consultants, under which the total outstanding options are limited 10% of the outstanding common shares at the time of each grant. Options granted may not exceed a term of ten years. All options vest when granted unless otherwise specified by the Board of Directors.

For the year end March 31, 2020:

On February 3, 2020, the Company has granted 80,000 incentive stock options to an officer of the Company (Note 14). Each option is exercisable into one additional common share at \$0.09 per share until February 3, 2023 and vested immediately on the date of grant. The fair value of \$5,240 share-based payments was estimated using the Black-Scholes pricing model with the stock price of \$0.08, volatility of 180.26%, risk-free rate of 1.46%, dividend yield of 0%, and expected life of 3 years.

On January 14, 2020, the Company has granted an aggregate of 675,000 incentive stock options to officers, directors and consultants of the Company. Each option is exercisable into one additional common share at \$0.09 per share until January 24, 2023 and vested immediately on the date of grant. The fair value of \$60,268 share-based payments was estimated using the Black-Scholes pricing model with a stock price of \$0.10, volatility of 181.45%, risk-free rate of 1.69%, dividend yield of 0%, and expected life of 3 years.

In January 2020, a total of 125,000 stock options were cancelled.

On September 4, 2019, the Company granted a total of 100,000 stock options (1,000,000 – pre-consolidation) to a consultant of the Company. Each stock option is exercisable into one common share at \$0.50 per share until September 4, 2020 and vested immediately on the date of grant. The Company recognized \$26,623 as share-based payments on the statement of comprehensive loss on the grant of the stock options. The fair value of \$26,623 share-based

Notes to the Consolidated Financial Statements As at and for the years ended March 31, 2020 and 2019

(Expressed in Canadian dollars)

payments was estimated using the Black-Scholes pricing model with the stock price of \$0.50, volatility 144.07%, risk-free rate 1.35%, dividend yield 0%, and expected life of 1 year.

On May 2, 2019, the Company granted a total of 250,000 stock options (2,500,000 – pre-consolidation) to a consultant, officers and directors of the Company. Each stock option is exercisable into one common share at \$0.60 per share until May 2, 2022 and vested immediately on the date of grant. The Company recognized \$119,041 as share-based payments on the statement of comprehensive loss on the grant of the stock options. The fair value of \$119,041 share-based payments was estimated using the Black-Scholes pricing model with the stock price of \$0.60, volatility 144.22%, risk-free rate 1.61%, dividend yield 0%, and expected life of 3 years.

On April 25, 2019, the Company issued 20,000 common shares (200,000 – pre-consolidation) for gross proceeds of \$10,000 for options exercised.

For the year ended March 31, 2019:

On July 11, 2018, the Company granted a total of 190,000 stock options (1,900,000 – pre-consolidation) to a consultant, officers and directors of the Company. Each stock option is exercisable into one additional common share at \$0.50 per share until July 11, 2021 and vested immediately on the date of grant. The Company recognized \$66,043 as share-based payments on the statement of comprehensive loss on the grant of the stock options. The fair value of \$66,043 share-based payments was estimated using the Black-Scholes pricing model with the stock price of \$0.50, volatility 141%, risk-free rate 1.5%, dividend yield 0%, and expected life of 3 years.

On August 1, 2018, the Company granted a total of 80,000 stock options (800,000 – pre-consolidation) to a consultant of the Company. Each stock option is exercisable into one additional common share at \$0.55 per share until August 1, 2020 and vested immediately on the date of grant. The Company recognized \$26,995 as share-based payments on the statement of comprehensive loss on the grant of the stock options. The fair value of \$26,995 share-based payments was estimated using the Black-Scholes pricing model with estimated, stock price of \$0.55, volatility 121%, risk-free rate 1.5%, dividend yield 0%, and expected life of 2 years.

On January 17, 2019, 14,200 options (142,000 - pre-consolidation) expired unexercised.

On March 4, 2019, 86,000 options (860,000 – pre-consolidation) cancelled unexercised.

On March 21, 2019, 2,500 options (25,000 – pre-consolidation) cancelled unexercised.

On August 1, 2019, 30,000 options (300,000 pre-consolidation) expired unexercised.

Notes to the Consolidated Financial Statements As at and for the years ended March 31, 2020 and 2019

(Expressed in Canadian dollars)

The following table summarizes information regarding stock options outstanding and exercisable as at March 31, 2020:

		Weighted-	,	Weighted
		average		average
	Number of	remaining		exercise
	options	contractual life		price
Exercise price	outstanding*	(years)		\$
Options outstanding and exercisable				
\$0.50	255,000	0.17	\$	0.09
\$0.80	97,500	0.01		0.05
\$0.09	755,000	1.47		0.05
\$1.00	95,000	0.07		0.07
\$0.60	235,000	0.34		0.10
Total options outstanding and exercisable	1,437,500	2.06	\$	0.35

^{*}Options were adjusted to reflect the share consolidation on October 17, 2019 (Note 10)

The weighted average grant date fair value of the options granted during the year ended March 31, 2020 was \$0.201 (March 31, 2019 - \$0.30) per option using the Black-Scholes Option Pricing Model. The weighted average assumptions used for the calculation were:

	March 31, 2020	March 31, 2019
Share price at grant date (\$)	\$0.08 - \$0.60	\$0.50 - \$0.55
Risk free interest rate (%)	1.62%	1.50%
Expected life (years)	2.82	2.70
Expected volatility (%)	170%	135%
Expected dividend per share	-	-
Fair market value of the option on grant date (\$)	\$0.201	\$0.30

	March 3	March 31, 2019				
	Number of options ¹	`	ghted erage price	ontions		Weighted average rcise price
Outstanding, beginning of year Granted Exercised Expired/Cancelled	572,500 1,105,000 (20,000) (220,000)	\$	0.80 0.24 0.50 0.80	405,200 270,000 - (102,700)	\$	1.10 0.50 - 1.20
Outstanding, end of year	1,437,500	\$	0.35	572,500	\$	0.80

¹Options were adjusted to reflect the share consolidation on October 17, 2019 (Note 10)

Notes to the Consolidated Financial Statements As at and for the years ended March 31, 2020 and 2019

(Expressed in Canadian dollars)

11. LOSS PER SHARE

The calculation of basic and diluted loss per share is based on the following data:

	Ma	arch 31, 2020	ľ	March 31, 2019
Net loss for the year	\$	(528,956)	\$	(1,012,368)
Weighted average number of shares – basic and diluted*		10,777,054		7,675,047
Loss per share, basic and diluted	\$	(0.049)	\$	(0.132)

^{*}Shares were adjusted to reflect the share consolidation on October 17, 2019 (Note 10)

The basic loss per share is computed by dividing the net loss by the weighted average number of common shares outstanding during the year. The diluted loss per share reflects the potential dilution of common share equivalents, such as outstanding stock options, and share purchase warrants, in the weighted average number of common shares outstanding during the year, if dilutive. All of the stock options and the share purchase warrants were anti-dilutive for year end March 31, 2020 and 2019 as the Company incurred a loss.

12. SHARE-BASED PAYMENTS

Share-based payments for options granted by the Company during the year ended March 31, 2020 and 2019 are amortized over their vesting period as follows:

Grant date	Fair value		Fair value Amount vested in the year ended March 31, 2020		Amount vested in the year ended March 31, 2019	
					•	66.040
July 11, 2018	\$	66,043	\$	-	\$	66,043
August 1, 2018		26,995		-		26,995
May 2, 2019		119,041		119,041		-
September 4, 2019		26,623		26,623		-
January 14, 2020		60,268		60,268		-
February 3, 2020		5,240		5,240		-
		·				
Total	\$	304,210	\$	211,172	\$	93,038

Notes to the Consolidated Financial Statements As at and for the years ended March 31, 2020 and 2019

(Expressed in Canadian dollars)

13. FINANCIAL INSTRUMENTS

13.1 Categories of financial instruments

	March 31, 2020	March 31, 2019
As at	\$	\$
FINANCIAL ASSETS		
At FVTPL		
Cash and cash equivalents	255,889	698,446
Total financial assets	255,889	698,446
FINANCIAL LIABILITIES		
At amortized cost		
Trade payables	9,194	40,196
Total financial liabilities	9,194	40,196

13.2 Fair value

The fair value of financial assets and financial liabilities at amortized cost is determined in accordance with generally accepted pricing models based on discounted cash flow analysis or using prices from observable current market transactions. The Company considers that the carrying amount of all its financial assets and financial liabilities recognized at amortized cost in the consolidated financial statements approximates their fair value due to the demand nature or short-term maturity of these instruments.

The following table provides an analysis of the Company's financial instruments that are measured subsequent to initial recognition at fair value, grouped into Level 1 to 3 based on the degree to which the inputs used to determine the fair value are observable.

- Level 1 fair value measurements are those derived from quoted prices in active markets for identical assets or liabilities.
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1, that are observable either directly or indirectly.
- Level 3 fair value measurements are those derived from valuation techniques that include inputs that are not based on observable market data. As at March 31, 2020, the Company does not have any Level 3 financial instruments.

Notes to the Consolidated Financial Statements As at and for the years ended March 31, 2020 and 2019

(Expressed in Canadian dollars)

	Level 1	Level 2	Level 3	Total
As at March 31, 2020	\$	\$	\$	\$
Financial assets at fair value

Financial assets at fair value				
Cash and cash equivalents	698,446	-	-	698,446
Total financial assets at fair value	698,446	1	-	698,446

There were no transfers between Level 1, 2 and 3 in the year end March 31, 2020 and 2019.

13.3 Management of capital and financial risks

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to pursue the sourcing and exploration of mineral properties. The Company does not have any externally imposed capital requirements to which it is subject.

The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue common shares or dispose of assets or adjust the amount of cash.

The financial risk arising from the Company's operations are credit risk, liquidity risk, interest rate risk, currency risk and commodity price risk. These risks arise from the normal course of operations and all transactions undertaken are to support the Company's ability to continue as a going concern. The risks associated with these financial instruments and the policies on how to mitigate these risks are set out below. Management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

Credit risk

Credit risk is the risk of loss associated with the counterparty's inability to fulfill its payment obligations. Financial instruments that potentially subject the Company to concentrations of credit risks consist principally of cash. To minimize the credit risk the Company places these instruments with a high-quality financial institution.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company manages liquidity risk through the management of its capital structure and financial leverage as outlined above.

Notes to the Consolidated Financial Statements As at and for the years ended March 31, 2020 and 2019

(Expressed in Canadian dollars)

The Company monitors its ability to meet its short-term exploration and administrative expenditures by raising additional funds through share issuance when required. As at March 31, 2020, all of the Company's trade payables of \$9,194 (March 31, 2019 - \$40,196) have contractual maturities of 30 to 90 days are subject to normal trade terms. The Company's loans payables are due on demand. The Company does not have investments in any asset backed deposits.

Foreign exchange risk

The Company does not have significant foreign exchange risk as the majority of its transactions are in Canadian dollars.

Interest rate risk

The Company is not exposed to significant interest rate risk.

14. RELATED PARTY TRANSACTIONS

The amounts due to related parties are amounts due to directors and officers. The balances are unsecured, non-interest bearing and have no specific terms for repayment.

As at March 31, 2020, the Company has \$379 due to related parties reported as part of accounts payable (Note 9). As at March 31, 2019, no amounts were due to key management, directors of the Company or companies controlled by management or directors of the Company.

As at March 31, 2020, \$13,205 (March 31, 2019 - \$5,931) management fees and benefits were recorded as prepaid expenses (Note 6).

14.1 Related party expenses

During the year ended March 31, 2020 and 2019, the Company entered into the following transactions with related parties:

Year ended	I	March 31, 2020	March 31, 2019
Expenses paid or accrued to directors of the			
Company, senior officers and companies with			
common directors:			
Management and administration fees	\$	178,544	\$ 157,826
Consulting fees		30,000	30,000
Share based payments		146,572	57,354
Total related party expenses by type	\$	355,116	\$ 245,180

Notes to the Consolidated Financial Statements As at and for the years ended March 31, 2020 and 2019

(Expressed in Canadian dollars)

The breakdown of the expenses by key management personnel is as follows:

Year ended	M	arch 31, 2020	March 31, 2019
Chief Executive Officer Chief Financial Officer Corporate Secretary Directors	\$	157,956 125,494 50,833 20,833	\$ 111,430 81,156 38,690 13,904
Total related party expenses by key management personnel	\$	355,116	\$ 245,180

14.2 Key management personnel compensation

The Company has identified its directors and senior officers as its key management personnel. The remuneration of key management was as follows:

Year ended	March 31, 2020		March 31, 2019	
Short-term benefits Share-based payments	\$	208,544 146,572	\$	187,826 57,354
Total key management personnel compensation	\$	355,116	\$	245,180

15. SUPPLEMENTAL CASH FLOW INFORMATION

15.1 Non-cash financing and investing activities

The Company incurred the following non-cash investing and financing transactions during the year ended March 31, 2020 and 2019:

Year ended	Ma	arch 31, 2020	March 31, 2019
Non-cash financing activities:			
Share-based payments	\$	211,172	\$ 93,038
Fair value of options exercised		6,952	-
Non-cash investing activities:			
Shares issued for exploration and evaluations assets		30,000	142,500

16. COMMITMENTS

The Company has certain commitments related to key management compensation for \$12,500 per month with no specific expiry of terms (Note 14).

The Company has certain commitments in connection with its mineral properties (Note 8).

Notes to the Consolidated Financial Statements As at and for the years ended March 31, 2020 and 2019

(Expressed in Canadian dollars)

Upon issuance of the Company's flow-through shares during the year ended March 31, 2019, the Company was required to spend approximately \$618,000 in eligible exploration expenditures (Note 17).

17. FLOW-THROUGH PREMIUM LIABILITY

During the year ended March 31, 2019, the Company issued 1,236,000 flow-through units (12,360,000 – pre-consolidation) for gross proceeds of \$618,000 and recognized a deferred flow-through premium of \$247,200, non-cash, as the difference between the amounts recognized in common shares and the amounts the investors paid for the units.

As at March 31, 2020, the flow-through premium liability outstanding relating to these flow-through shares was \$Nil (March 31, 2019 - \$226,391). The Company was required to spend \$618,000 in eligible exploration expenditures in relation to the above flow-through issuance (all incurred as of March 31, 2020).

During the year ended March 31, 2020, the Company recognized flow-through income of \$226,391 (March 31, 2019 - \$23,540) and paid \$6,325 in interest (2019 - \$Nil).

18. TAXES

18.1 Provision for income taxes

	March 31,	March 31,
	2020	2019
	\$	\$
Loss before tax	528,956	1,012,368

Notes to the Consolidated Financial Statements As at and for the years ended March 31, 2020 and 2019

(Expressed in Canadian dollars)

19. EVENTS AFTER THE REPORTING PERIOD

In March 2020, the World Health Organization declared a global pandemic known as COVID-19. This is causing significant financial market and social dislocation. This has also resulted in significant economic uncertainty and consequently, it is difficult to reliably measure the potential impact of this uncertainty on the Company's future financial results.

On May 15, 2020, 97,500 options expired unexercised.

20. APPROVAL OF THE CONSOLIDATED FINANCIAL STATEMENTS

The Financial Statements of the Company for the year ended March 31, 2020 were approved and authorized for issue by the Board of Directors on July 9, 2020.
